GOUTHAM LAL

FULL STACK DEVELOPER
LARAVEL · DEVOPS & CLOUD

Location: Kozhikode, Kerala, India

Phone: +91 85904 85146

Email: gouthamlal666@gmail.com

Portfolio: gouthamlalportfolio.netlify.app

GitHub: github.com/gouthamlal666

LinkedIn: linkedin.com/in/goutham-lal-505780297

CORE SKILLS

BACKEND

PHP · Laravel · CodeIgniter · Python · Django · REST APIs · MVC · Auth & RBAC

FRONTEND

JavaScript · Vue.js · Next.js · HTML5 · CSS3 · Bootstrap · Livewire · Alpine.js · Tailwind CSS · jQuery · AJAX · Swiper.js

DATABASE

MySQL · PostgreSQL · SQLite · Supabase · Query Optimization

KEY STRENGTHS

- Full Stack Web Development
- Laravel & SaaS Applications
- REST API Design & Integration
- E-Commerce Development
- Database Design
- Deployment & Server Management
- Production Troubleshooting
- Website Migration

EDUCATION

Diploma in Multimedia & Designing

Specialization: Full Stack Development (PHP Stack)

LANGUAGES

- English — Professional
- Malayalam — Native

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on agency experience designing, building, deploying and maintaining modern web applications and e-commerce platforms. Strong in **PHP, Laravel, CodeIgniter, JavaScript, Vue.js, MySQL** and RESTful API development, with practical DevOps skills across Linux, Docker, CI/CD, Git and production server deployment.

Comfortable owning features end-to-end — from database design and backend logic to responsive UI, third-party integrations, go-live and production support. Currently deepening expertise in AWS, Azure, GCP, Kubernetes, Terraform and multi-cloud infrastructure.

PROFESSIONAL EXPERIENCE

Full Stack Developer | Makeit Ads

Jun 2025 – Jun 2026

Creative & Digital Agency

- Built and maintained responsive websites and dynamic web applications for client and business projects using Laravel, PHP, Vue.js, JavaScript, Bootstrap and MySQL.
- Designed and integrated REST APIs connecting frontend and backend systems, plus third-party services and external APIs.
- Implemented authentication, user management, dashboards, CRUD modules and core business logic.
- Developed e-commerce features including product & category management, search, filtering, customer accounts and checkout workflows.
- Designed MySQL schemas and relationships, and wrote optimized queries for data-heavy features.
- Deployed and managed production sites on cPanel, Hostinger and Linux servers — handling DNS, SSL and Cloudflare configuration.
- Diagnosed and resolved live production issues: server errors, `.env` and routing misconfigurations, database faults and failed deployments.
- Implemented GA4 and Google Tag Manager tracking; optimized sites for performance, usability and SEO.
- Worked across the full lifecycle — requirement analysis, development, testing, deployment and maintenance — using Git/GitHub workflows.

Stack: Laravel · PHP · Vue.js · JavaScript · MySQL · Bootstrap · Git · cPanel · Cloudflare · GA4/GTM

Junior Full Stack Developer | ViralMafia

Dec 2024 – Jun 2025

Digital Marketing Agency

- Developed responsive websites and web applications with PHP, Laravel, CodeIgniter, JavaScript, HTML, CSS, Bootstrap and MySQL.
- Built MVC-based backend functionality: dynamic pages, forms, authentication systems, dashboards and database-driven features.
- Created and consumed REST APIs; added interactive experiences with AJAX and jQuery.
- Translated design specifications into pixel-accurate, responsive user interfaces.
- Investigated and fixed bugs, optimized database queries and improved existing features.
- Assisted with deployments, hosting setup, domain configuration, SSL and production troubleshooting.
- Collaborated with designers and team members to deliver client projects on time and to specification.

Stack: PHP · Laravel · CodeIgniter · jQuery · AJAX · MySQL · Bootstrap · Git

DEVOPS & CLOUD

Linux Admin · Bash / Shell · Docker · Kubernetes · Terraform · Ansible · Jenkins · GitHub Actions · AWS · Azure · GCP · Cloudflare · cPanel · Hostinger · SSL / DNS

TOOLS

Git · GitHub · VS Code · Composer · npm · Postman · XAMPP · phpMyAdmin · UTM / Linux VMs

APIS & INTEGRATIONS

- REST API development & consumption
- API authentication & JSON handling
- Webhooks
- Payment gateway integration
- WhatsApp Business API
- Google Analytics 4 & Tag Manager
- AJAX-based API communication

PROFESSIONAL QUALITIES

- Problem Solving & Logical Thinking
- Debugging & Troubleshooting
- Project Ownership
- Client Communication
- Team Collaboration
- Quick Learning & Adaptability
- Time Management

ALSO EXPERIENCED IN

- CI/CD pipelines (GitHub Actions, Jenkins)
- Terraform IaC & Ansible automation
- Production deployment & troubleshooting
- SEO-friendly development
- Website migration
- Domain & DNS setup
- `.env` & environment config
- Performance optimization
- UI/UX implementation

KEY PROJECTS

MathsEleven — CSSE 11+ Maths Preparation Platform

LIVE · MATHSELEVEN.CO.UK · SUBSCRIPTION EDTECH SAAS

Subscription platform preparing children for the Essex CSSE 11+ grammar-school exams (KEGS, CCHS, CRGS, Southend, Westcliff). Parents subscribe and assign work; children practise in their own themed area. Features adaptive practice that targets each child's weakest topics, timed mock exams with standardised scoring against cohort data, a 60-minute free diagnostic with instant topic reports and PDF reports, a 95-subtopic syllabus tracker, 17 maths mini-games, printed-paper shop and in-person mock sittings.

Adaptive Practice · Timed Mock Exams · Free Assessment · PDF Diagnostics · Syllabus Tracker · Mini Games · Parent & Child Areas · Stripe Subscriptions · Google OAuth + Child PIN Login · Shop & Exam Centre · Admin Console & Audit Log · AI Chat Widget

Scale: *57 controllers · 88 services · 48 Livewire components · ~50 models · 129 routes · 2,283 automated tests*

Laravel 11 · PHP 8.2 · Livewire 3 · Alpine.js · Tailwind CSS 4 · MySQL 8 · Stripe · Resend · Hostinger

Avaa Boutique — Fashion E-Commerce Platform

LIVE · AVAABOUTIQUE.COM · FULL STACK DEVELOPMENT

Production e-commerce store for an Indian ethnic-wear boutique with a custom Laravel admin control centre managing a catalogue of 1,100+ products. Built live KPI dashboards (sales, revenue, paid orders, pending fulfilment, customers), role-based admin & staff access with activity logs, and end-to-end order, payment, shipping and inventory workflows.

KPI Dashboard · Activity Logs · Orders · Products & Categories · Inventory · Customers · Coupons · Payments · Shipping · Reports · Marketing · Banners & Videos · Blogs · SEO Settings · Admin & Staff Roles

Laravel · PHP · MySQL · JavaScript · Bootstrap · REST APIs

Wappylizer — WhatsApp Automation SaaS

MULTI-TENANT SAAS · ARCHITECTURE & DEVELOPMENT

A multi-tenant SaaS platform for WhatsApp automation, CRM and business workflow automation, designed for white-label resale with subscription billing and a REST API / webhook layer.

Auth & Roles · WhatsApp API Mgmt · Team Inbox · CRM & Contacts · Broadcast Campaigns · Chatbot Builder · AI Chatbot · Workflow Automation · E-com Integrations · Ticketing · Analytics Dashboard · Subscription & Billing · White-Label · Admin Panel · REST APIs & Webhooks

Laravel · PHP · MySQL · JavaScript · Bootstrap · REST APIs

Task Management SPA

LARAVEL API ARCHITECTURE

Single-page task manager on a Laravel REST API with full CRUD, status workflows, validation and a responsive Bootstrap UI.

Laravel · REST API · JavaScript · MySQL · Bootstrap

Invoice Management System

BUSINESS APPLICATION

Laravel app for creating and managing invoices, with relational schema design, validated CRUD and API-driven business logic.

Laravel · PHP · MySQL · Bootstrap · REST API

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
